- Skiing

Languages

Hungarian ●●●●●
English ●●●●○

Soft skills

- Team-oriented mindset
- Time management and reliability
- Strong communication skills
- Self-motivated and proactive
- Positive and approachable attitude

Achievements

- National Higher Education Scholarship (2023)
- Continuous academic scholarship support during BSc studies (2022-2025)
- Selected as student demonstrator from 2nd semester onward (2022-2025)

I consider myself an enthusiastic programmer with a strong interest in both imperative and functional programming paradigms. I have a lifelong learning mindset and enjoy continuously expanding my knowledge and skills. I like being around people and working in a team. I am open to absorbing and acquiring new knowledge and skills.
In my free time, I regularly work on personal programming projects, often in collaboration with fellow students and friends.

I graduated from secondary school in 2021 with a GPA of 4.8, and soon after obtained my English B2 language certificate. During this period, I started studying Software Development and Testing as part of a technician-level training program.
In 2022, I enrolled in the BSc Computer Science program at Eötvös Loránd University. I was awarded a National Scholarship for Higher Education in 2023 for my academic achievements in the first two semesters. From the second semester onwards, I have been in various demonstrator roles.
I earned my BSc degree in Computer Science in 2025 with a 4.67 GPA and I have been admitted to the MSc program in Computer Science at Eötvös Loránd University, starting in September 2025.

Work experience

Student Tutor — Feb 2023 - Present
Eötvös Loránd University, Budapest

Background work and teaching in functional and object-oriented programming.

Junior C# Developer — Oct 2025 - Present
ARDINSYS Zrt., Budapest

Backend development for the equities division at Erste Investment Ltd.

Education and Qualifications

Technician qualification — Sep 2021 - May 2023
BGéSZC Szily Kálmán Technical School and College, Budapest

Software developer and tester

BSc — Sep 2022 - Jul 2025
Eötvös Loránd University, Budapest

BSc in Computer Science – Specialization in Software Design

Msc — Sep 2025
Eötvös Loránd University, Budapest

MSc in Computer Science – Specialization in Artificial Intelligence
